WOMEN'S FUND

OF GREATER CHATTANOOGA

CHATTANOOGAWOMENSFUND.ORG

Tennessee is one of the worst states for women.

In fact, we rank 49 out of 50. That means life is harder for women in Tennessee than in almost every other state in the country. Here, their opportunities for education and employment are more limited, healthcare is more restricted, and the rates of poverty and abuse are higher. In our state, when a woman strives for a better life, the odds are stacked against her.

But no longer.

The Women's Fund of Greater Chattanooga is leading the effort to move Tennessee from 49 to 1. We leverage advocacy, philanthropy and a robust network of partners to address the root causes of inequity and to create lasting change for the women of our state.

Join our journey to the top.
