**WHEREAS**, on April 28, 2020, Governor Lee issued Executive Order No. 30 which strongly limited the ability of local orders in Hamilton County and governed all subjects it concerned, except to the extent that the locally run county health department has issued differing local orders or measures regarding the opening, closure, or operation of businesses, organizations, or venues as provided in Paragraph 13 c of Executive Order No. 30; and

The order allows the continued suspension of various laws and regulations and other measures in these orders to facilitate the treatment and containment of COVID-19 through regulatory flexibility, promoting social distancing and avoidance of large gatherings, and protecting vulnerable populations. This Order also considers medical information that the City has received from various sources, including the State of Tennessee Department of Health, the Centers for Disease Control (CDC), the Hamilton County Health Department, and best practices from Harvard University, Johns Hopkins University, Vanderbilt University, and the University of Tennessee System, as well as the City and County Mayors' COVID-19 Joint Task Force.

**NOW, THEREFORE, I, ANDY BERKE, MAYOR OF THE CITY OF CHATTANOOGA**, by virtue of the powers vested in me, proclaim that a local public health civil emergency continues to exist in the City of Chattanooga, Tennessee based on COVID-19 community transmission and the extensive storm and damage to property from wind and floods which occurred on the night of April 12, 2020 and into the early morning hours of April 13, 2020 and I hereby direct and order the following:
